**Control Risks**

**John Macpherson** *Manger- Client Listings Control Risks*

Control Risks is an independent specialist business risk consultancy whose mission is to enable its clients to succeed in complex or challenging environments. It has over three decades of unmatched experience managing risks for clients expanding their business in emerging markets. Since its foundation in 1975, Control Risks has worked in more than 150 countries for more than 5,300 clients – including nineteen of the current twenty largest mining companies. Our strength lies in our unique combination of a rigorous strategic approach to analysis with a hands-on experience and knowledge of conditions on the ground.

1430

**Doug Jones** *Managing Director Chalice Gold Mines Limited (CHN)*

Chalice Gold Mines Limited is a well funded Perth-based company focused on building shareholder value through the discovery, aggressive exploration and development of high quality gold projects in Australia and internationally. Chalice, via its impending merger with Sub-Sahara Resources, is poised to commence Scoping and Feasibility Studies on the high grade Zara Gold Project in Eritrea to fast track it to production in the shortest possible timeframe.

1450

**David Sumich** *Managing Director DMC Mining Limited (DMM)*

DMC Mining Limited's (ASX :DMM) principal asset is the Mayoko Iron Ore Project in the Republic of Congo ("ROC"), where there is currently an exploration Target of 0.7 – 1.0 billion tonnes based on drilling and a recent aeromagnetic survey. The deposit is 2.2km's from a railway connecting to the port of Pointe Noire. Drilling is scheduled to commence in September.

**Josh Abdurahman** *Former President Australia Africa Business Council*

The Australia Africa Business Council was established in 1986 as a Council to promote bilateral trade and investment between Australia and all the countries of Africa. Originally it concentrated on Southern Africa but that focus has broadened to encompass the Continent. The AABC is a national body with branches in each State of Australia. Its focus is on trade, mining, investment and tourism development. Its publication is the BOAB produced quarterly.

1605

**Robert Kirtlan** *Executive Director NGM Resources Limited (NGM)*

NGM Resources Limited is an explorer focused on brown field exploration plays. It currently operates in underexplored yet uranium rich Niger and lightly explored Madagascar.

1625

**Frazer Tabear** *Managing Director African Energy Resources Limited (AFR)*

African Energy has an extensive portfolio of uranium projects in southern Africa, ranging from bankable feasibility studies in southern Zambia to grassroots exploration projects containing uranium anomalies defined by airborne and ground radiometric surveys.
